

Attestkeep affiliate programme

What your clients get, what you earn, how it works

15 October 2026 · Figures in US dollars, excluding VAT. The partner agreement governs.

Who this is for

Audit firms, consultancies and DevSecOps shops whose clients run Kubernetes. Your clients have to control which images run in their clusters and show their auditor that they do. When they buy Attestkeep with your code, you earn a share of every payment they make.

What Attestkeep does

Attestkeep decides which container images may run in a Kubernetes cluster. It scans each image, verifies its signatures and attestations, and admits or denies it at admission by the client's policy. Every decision is kept as signed evidence, mapped to 13 compliance frameworks, that an auditor can check without asking us. It runs inside the client's cluster, and the Community edition is free.

How it works

- 1** You apply from your Attestkeep account and sign the partner agreement. We review the application and answer by e-mail.
- 2** Once we approve it, we open your discount code. You find it on your partner page.
- 3** Your client enters the code at checkout. If we invoice them by hand instead, we note you on the invoice.
- 4** Every payment the client makes adds your commission to your balance. When it reaches the threshold shown on your partner page, you request a bank transfer.

What your client gets

5% off every payment in their first 12 months. On annual billing, that is their first annual payment.

What you earn

- 20% of what the client pays, before tax, in their first 12 months, counted from their first payment with your code.
- 5% of every later payment, for as long as they keep paying.
- Commission accrues while you are in the programme. If you are suspended or leave, no new commission is added; what you have already earned is paid under the agreement.
- Add-ons the client buys (extra nodes, clusters, frameworks, image names) count the same way.

Monthly billing

One client, amounts in USD.

Plan	List price / month	First year			From year two		
		Client pays / month	Your commission / month	Your commission, year total	Client pays / month	Your commission / month	Your commission / year
Team	600	570	114	1,368	600	30	360
Business	1,800	1,710	342	4,104	1,800	90	1,080
Enterprise	3,600	3,420	684	8,208	3,600	180	2,160

Community is free and earns no commission. Custom plans are priced by quote.

Annual billing

One payment a year, at 10 months' price. One client, amounts in USD.

Plan	List price / year	First year		Each renewal	
		Client pays	Your commission	Client pays	Your commission
Team	6,000	5,700	1,140	6,000	300
Business	18,000	17,100	3,420	18,000	900
Enterprise	36,000	34,200	6,840	36,000	1,800

Examples at today's list prices and rates, not a promise of earnings.

Add-ons pay the same way: an extra node at \$50 a month pays you \$9.50 a month in the first year and \$2.50 a month after that.

Worked example

Three clients start with your code in the same month: one on Team, billed monthly, one on Business, billed annually, and one on Enterprise, billed monthly.

Client	Plan	Billing	You earn, first year	You earn, every later year
Client 1	Team	Monthly	1,368	360
Client 2	Business	Annual	3,420	900
Client 3	Enterprise	Monthly	8,208	2,160
Total			12,996	3,420

The rules in short

- Your own purchases, and those of a business you control, earn nothing.
- If a payment is refunded or charged back, we take back the commission in the same proportion.
- No coupon or cashback sites, no spam, no bidding on our name in search ads, and no claims that are not on our website.
- We never tell you who your clients are. You see dates, plans and amounts.
- Payouts go by bank transfer when you request them. Your taxes are yours to handle.
- We may change the programme. We tell you by e-mail and on your partner page before it takes effect, and commission you have already earned is not reduced.
- The agreement you sign is the binding text, and it is in English.

Apply
